

Luis Betancourt

Software Engineer

SUMMARY

Creative, detail-oriented, software engineer with a deep interest in AI. Proven track record of creating and implementing successful front and back end web applications. Looking to bring my skills to a tech company with global reach.

WORK EXPERIENCE

Software Engineer at 100devs, Los Angeles, CA

October 2020 — Present

- Collaborated with a team of developers to build modern and responsive web applications using best practices
- Built semantically structured full stack web applications
- Applied agile methodologies like SCRUM for project management

Recent Projects:

Solar Tracker (Fullstack Web App) – By accessing their profiles, Solar Technicians can efficiently manage their daily workload, including keeping a record of completed tasks, taking notes, and eliminating previous jobs.

Atmospheric Conditions Visualization System – Provides users with accurate information about current and forecasted atmospheric conditions. It compiles and presents data related to temperature, humidity, and wind speed.

Nasa Star Gazer Society - Provides the user with stunning images of our universe, along with informative descriptions written by professional astronomers using NASA API.

Other Projects: Small Lakes Casino Virtual Slot Machine, On-demand background color changer for Partnered Twitch streamer, and many more.

Full Stack Web Developer at Luis's Consulting | Temecula, CA

November 2019 — Present

Created full stack web applications and static websites for different clients across small and medium size businesses. Also, consulted on SEO and social media strategy. Some clients included:

Actual Client – Stacy Cruz, Pica Dulces

Collaborated closely with client to understand their business goals and requirements for their candy website. It exceeded 80k in sales in the first year.

Solar Engineer at Leonard Roofing | Temecula, CA

January 2019 — November 2019

Dedicated and results-driven Solar Technician with a proven track record of successfully installing solar systems in new homes across California. Adept at ensuring the efficient and safe installation of solar panels and related equipment, while consistently achieving monthly revenue targets exceeding \$20,000 for the company. Possess in depth knowledge of solar energy systems, electrical components, and the latest industry standards.
